

## **Trust the Specialist** in Business Process Outsourcing

You want to finally concentrate on your core business again? You've had enough of constantly having to check your payment service providers?

Then trust us with your finance management. We are the market leader in Germany when it comes to credit management and subscription billing.

## Trust the Specialist in Business Process Outsourcing

**nexnet**

We are the leading outsourcing specialist for credit management and subscription billing in Germany. With our efficient solutions for payment procedures, receivables management, and finance clearing we provide the all-in-one solution for the outsourcing of your financial processes.

### 21-YEAR EXPERIENCE OF BPO

Increasing competitive pressure demands a great deal of adaptability from you and your business processes. Regulatory requirements and changes in your customers' purchasing behaviour of your customers force you to act. Something which is always affected by this, but is often underestimated: Your billing processes. Since our founding in 2000, we have specialized in completely taking over our customers complex finance processes. Our main areas of focus are credit management and subscription billing.

Our many satisfied customers include well-known providers in mobile and fixed-network telephony, steaming services, and companies in the retail, e-commerce and media sectors.

#### Clear Advantages

- > Spare your resources by outsourcing your processes
- > Your company grows – our scalable solutions grow with it
- > High-level effectiveness through longstanding specialization in high-volume billing
- > Our data centres in Germany guarantee the highest level of performance and optimal data protection
- > Profit from the constant development of our platform

Company headquarters of nexnet GmbH in Berlin

### Comprehensive Outsourcing – Our Recipe for Success

Always have an overview of your finances. Our modular service range covers everything from order management to the pricing of products or services to the creating and sending of bills. With our operational receivables management, you will always have full control of each of the steps of a comprehensive outsourcing service. If desired, our well-trained customer service team will process not only requests and complaints and will also carry out marketing campaigns for you.

### We Know What We're Doing – Guaranteed!

- > Central IT platform for quick product and price adjustments
- > Automated and high-performance SAP and Oracle systems
- > Informative tools for reporting, statistics, and analyses
- > CRM system for data models of any level of complexity
- > Interfaces for provisioning and CRM systems
- > Quality technology "Made in Germany" – which is also confirmed by the DIN 9001 certification in the billing processes
